Volunteers Needed: Need to earn PIP hours? We're in need of volunteers to help with our annual vision screening in January. Medical training is not necessary, but would be nice! Also, we're in need of volunteers to help officiate at the district spelling bee on February 1 at Shorewood Christian School in S. Seattle. (Parents cannot officiate in the same room in which their child is a participation speller.) Please contact the office if you can help.

Re-enrollment: Re-enrollment is coming up! Enrollment packets should be available in early February. Registration begins February 12th for returning students. Financial accounts must be current in order to register. A registration discount will be offered to families with current financial accounts during the period of February 12-15.

Open House: Our annual Open House for those interested in attending Cedar Park in the fall will be held in the Chapel on Thursday, February 7th at 7 pm. Tell your neighbors, friends and family about this event!

A note from Mr. Frunz...

I appreciate all the parents who are willing to participate in work parties at our new campus. I'm asking anyone who is interested in helping to email me or Mrs. Lackey at curt.f@cedarpark.org or maggie.l@cedarpark.org so that lists can be compiled. It's been very encouraging to hear the positive comments from the parents. We're making plans to prepare for the new school, but as it says in Proverbs 16:9, people may make plans in their minds but the Lord decides what they'll do. Please continue to pray because we do need a balance between faith and careful planning.

Secondary finals will take place next week. The purpose of finals is to review subject matter so that students can have a better transfer of information from short term to long term memory. The semester ends on Friday, January 25th.

A look inside the classrooms...

Mrs. Fine's 4th grade students are choosing an insect to research.

English 8 students have been learning about life aboard a ship to supplement their reading of *Slave Dancer*. This week they made biscuits that the crewmen would have eaten, designed their own flag, and learned some of the phrases that the seamen would have used. This will help them to better analyze the characters of the book and to appreciate the imagery that is used.

Biology students listened to their breathing with stethoscopes and will do a lab where they see exactly how much sight and smell affects their sense of taste.

Physics students are tackling a real-life engineering project and designing a toy skimmer. They're running many trial tests to create the perfect toy.
